+1 555 0100

PROFILE

Engineer focused on reliable local-first products and clear user workflows.

Experienced with TypeScript, Node.js, SQLite, and accessible web interfaces.

EXPERIENCE

Senior Product Engineer - Example Studio

2022 - Present

- Built offline-capable application workflows with deterministic synchronization.
- Improved upload, preview, and download reliability across desktop platforms.

Software Engineer - Local Systems Lab

2019 - 2022

- Designed authenticated APIs and testable local service boundaries.
- Shipped accessible React interfaces backed by SQLite and object storage.

SKILLS

TypeScript | React | Node.js | SQLite | Local-first architecture

EDUCATION

B.S. Computer Science - Example University
